Exploring Senses "Digital Olympics" Proposal at Brighton Youth Centre (BYC) 14-15th July 2012

<http://www.brightonyouthcentre.org.uk/>

"an event for young people, by young people"

The Olympic and Paralympic Games are about much more than sporting excellence. They promote a set of universal principles – or Values – that could be applied to education and to society as a whole, as well as to sport itself. These Values are:

- respect – fair play; knowing one's own limits; and taking care of one's health and the environment
- excellence – how to give the best of oneself, on the field of play or in life; taking part; and progressing according to one's own objectives
- friendship – how, through sport, to understand each other despite any differences

The Paralympic Values are based on the history of the Paralympic Games and the tradition of fair play and honourable sports competition. They are:

- courage
- determination
- inspiration
- equality.

Exploring Senses aim to collide the Olympic values with computer gaming, science, art, sport, comedy and digital interactions by transforming Brighton Youth Centre into a live human video game.

Planned Events List;

Mind Control Scalextric - drive a car with your mind
Exercise bike controlled Scalextric - you peddle, you win
Beat Boxing - boxing digital interface
Multi-Dance Mat digital dance floor - make music with your feet
Sports Band - physical interactions trigger sounds
Ping Pong Obscura - play table tennis like never before
Skate Digital Interactions - the art of skating
Fluxus Olympiad - ridiculous games for all the family to enjoy!!

We are looking for local and National business support.
